of Tommy Manchesi

"Cheez, you will never be forgotten. Memories will never fade away and you will always hold a special place in our hearts. You watch over us everyday and keep us safe. We love you buddy." - Tom Murray

"Tom, Even though you cannot be seen physically or heard, your kindness, responsibility, and respect can be found wandering in the hearts of your friends and peers, which will travel with them forever." - Chad Ahern

"When I think of my friend Tom I don't think sad thoughts.

Truthfully, I just remember our memories from second grade to tenth grade. I've experienced many memories with Tom and so many of them go through my head. But, what I will never forget is his smile. Tom had a very impacting smile. No matter how bad the day could be he'd still smile and let you know that he was happy to see you. His artistic talent was incredible as was his knowledge about the military. Tom will always be in my heart." - Travis Soaft

"Tommy always knew what was going on in the world. I was in his 10th grade history class and he just always knew everything that we talked about in class." - Amanda Letizio

"Tom, you were more than just a neighbor, you were a friend, a brother, I'll always miss you and you're always in my heart." -Andrew Lomaglio

"God broke our hearts to prove to us, he only takes the best. Tom, always in my heart; miss you." - Cassandra Clavette

Tommy will live forever in the hearts and memories of all who knew him. He was fortunate to have grown up in this wonderful town with a family, friends, and teachers who love him very much. Tom was talented in art and also enjoyed good times with others, computer games, sports, and was an avid patriots fan. We wish for all to remember him as a great guy who touched their lives with friendliness, a warm smile, joy, and laughter. We know that Tommy wishes the best of luck to all of you. With love and gratitude, *The Manchesi Family*

"We cannot fail to win unless we fail to try" - Tom Clancy. I have failed numerous times in my high school career but I stood back up and tried again. Thanks to my family for sticking by me and to my friends; Mary and Paulina for being by my side. Rebekah you have been there for me always and laughed for hours, thank you for all the laughs and memories. Congrats class of 2008!

Chad Ahern

"Life is too short so have a blast to make it last." I have had lots of good and bad times at Berlin High School. Only the good times are remembered though. I'll remember all the fun I had chilling with my boys, reminiscing of past smiles and laughs that we shared. Yet even though I didn't like going to school it was cool because all my friends were there with me.

Sami Alami

"There are no road signs to help navigate. And, in fact, no one has yet determined which side of the road we're supposed to be on."

Mary Alberti

"For every dark night, there's a brighter day." If you put your mind into what you do you will be successful. During my four years of high school I have learned so much and I have so many memories that will always be with me with unconditional love and last a life time. I would like to thank my friends and my family for always being there for me. "During your life, never stop dreaming. No one can take away your dreams." Good luck class of '08.

Adrianna Alessi

"Live Fast Die Hard."- Elvis 'The King' Presley

Dustin Allen

"There are only two mistakes one can make along the road to truth; not going all the way, and not starting."

Elizabeth Allocca

These past four years have been filled with memories that will last a lifetime. To my friends - thanks for always being there, I can not imagine life without you - I love you. My colorguard unit girls, there was never a dull moment when we were together, thanks for making senior year so interesting. Mom, Dad, and Mike, thank you for all of your support over these past four years. And to the class of '08, good luck!

Carl Amato

"Live fast, Die fun" - Famous Stars and Straps. Here is to the weekends. Great times right there. I had four great years here in this school that I won't forget.

"Never second guess where you've been, where you are, & most of all where you're going." Good luck class of '08. To my family - So much of me is made of what I learned from you. I love you all. "The future belongs to those who believe in the beauty of their dreams." These past years have been the best years of my life. Without help, it would've been impossible to manage. My family, you've always been there for me. Casey, All, Bri & LuLa, you girls are the best. My love, you are amazing. I don't know what I'd do without you. 6/3/07. It's time these dreams become reality! Congrats '08!

Kristen Aniolowski

Many people call upon particular things as a source of inspiration. After much reflection, I have come to the realization that my source is the humble platypus. Platypuses have endless possibilities, as do I. If you think about it, there is no animal more truly noble. So certainly, you can understand why it gives one much motivation. I hope you are all similar to platypuses or platypi.

Emily Auciello

"Accept yourself for who you are. I'd rather be the best me - I possibly can than a copy of someone else." I'll never forget my girls and the crazy times we've had, memories were definitely made. Dad, Mom, Gina, Amanda; thanks for all your love and support. Good luck class of '08.

Diana Aziz

Though we are young, we hold the torch of change that will create a better tomorrow. One cannot let criticism, ignorance, or fear of failure yield them from making a difference in the world. Help those who are weaker than you & follow those who inspire you. I wish everyone the best of luck in life & hope you all will find happiness. Mom, Dad, & family, you mean more to me than you will ever know.

Michael Baczewski

I couldn't have asked for any more hectic a trip through high school. To my mom, dad, & brother, I am both grateful & deeply sorry for bringing you along this rickety rollercoaster ride - few families possess your sense of reckless loyalty. Jaime, Jon, & Meatwagon - thank you for helping me get from point A to point B. To Derek Lubetkin, who made the last three years something worth telling stories about.

Cameron Banks

I really don't know what to say. These last few years have just been a blur. I can barely remember anything I have learned in these last four years in this school. There is just one thing I do recall, spending time with my friends during school or after it. Those are the times I'll hold close to me, even years after we all leave this school for good and never come back here again.

Joseph Barrett

"So everybody put your best suit or dress on / Let's make believe that we are wealthy for just this once / Lighting firecrackers off on the front lawn / As thirty dialogues bleed into one / I wish the world was flat like the old days / Then I could travel just by folding a map / No more airplanes, or speed trains, or freeways / There'd be no distance that can hold us back." - Death Cab For Cutie

Laura Bedus

Nicholas Bengtson

"I wear what I want to, overalls, work boots, Crank my music up loud, like to sling a little mud in my four wheel drive, Trek it all into town." Kent's house in the barn, Halloween parties, ruck pulls & ice fishing all winter long. Thanks Mom and Dad, Congrats '08!

 people who put up with the big
 fellow, thank you."

"Life is too short so love the one you got 'cause you might get run over or you might get shot."

Corissa Wilson

What a crazy ride it's been! In the recent past I've come to learn that nothing is more important than honoring myself first. Attending far too many whiteboard jungles in the past four hectic years of my education has taught me to open my heart to anyone who's willing to trickle in. Graduation is finally here, my life lies in front of me and my ambitions are ultimately within my grasp.

Amber Witter

"Expect nothing, live frugally on surprise." I remember the first time I entered Berlin High, I would of never knew I would of made it this far. I've learned a great deal of stuff from being here. I would like to thank my teachers, my guidance counselor and my parents; they have been very supportive and helpful.

Thanks to my family, Mrs. Daniels, Mrs. Mirabello, John M, Ben G, the swim team guys, and everyone else who has supported me along the way. I'd like to give thanks to my mom and dad who brought me here, my ESL teacher and tutor, and all of you guys in Berlin High School.

Fan Zhou

MRS. ARCHER

I graduated from Southern Connecticut State College in 1972 with the hopes of being an art teacher so that I could share the pleasure that I got from making stuff with my students. The career was so much more than I expected.

I didn't know, for example, that I would become not only a teacher, but a mentor, a mother, a counselor, and friend to so many students. Teaching Drawing and Painting was more than strokes on paper or canvas. I didn't know that silence taught more than talk or that I could do best by doing least. When I got my Masters from Central Connecticut State College, I was beginning to learn that every piece of art work was a self portrait of that student at that moment and could tell me so much more about that student than could all the quizzes and projects I might assign. I tried to find interdisciplinary connections to art from different subject areas and draw Math into my curriculum as well as Music and History. I taught Humanities at BHS for a while with Dr. Carol Virostek and awakened to the connections between Art and literature. I hoped to find unusual and unexpected approaches to teaching art and hopefully some students who never saw themselves as artists found that they had a voice in the creation of their art work. The best thing I ever read is the answer to the exam question that started out, I never thought I was an artist, but...

In 1985, I completed a second Masters degree in Movement Studies and Literature at Wesleyan University and became an official risk-taker. Who, in middle age, would attempt a degree in Dance? But Dance, I did and tried to use my example in the hopes of encouraging students who tried to always take the safe path to see potential for the extraordinary in themselves. I became active in the State of Connecticut Teacher Training program known as BEST and was assigned to be a State Teacher in Residence at the State Dept. of Ed. I taught first and second year teachers so that they could gain their CT Teachers Accreditation and had the chance to work with extraordinary teachers from all over the state. I was awarded National Board Certification from the National Board of Professional Teaching Standards in 1994 and finished my 6th Year Degree in Administration at the University of Hartford. I have presented workshops at both the State and National Art Educational Conventions. I hope I did a good job of it.

I have taught Elementary, High School and Adult Education. I've taught Kindergartners and teachers. I still like to make stuff and I like to teach others how to make stuff. I don't think that retiring is going to be the end of that. I still have a lot that I like to do and I dream of continuing to share the pleasure that I take as an artist and teacher. Berlin High School has given me a place to hang out for a while between my hopes and my dreams. Thank-you, Berlin.

"It will be sad to see Chris Archer go. She has been my mentor for 13 years. I seemed to always be learning something new from Chris; a fantastic teacher, wordsmith and leader. She will be greatly missed."

- Mr. Raiti

"Teaching with Mrs. Archer for the past 35 years has been a privilege. She is an inspiration to me in many ways - as an educator, an artist, a friend, and person. She never ceases to amaze me in her professionalism, her knowledge, and her insightfulness." - Ms. Wilenski

"Chris and I became instant friends when I arrived here in 1992. She, of course, was a veteran teacher and was enormously supportive of my endeavors. The word to describe her which comes to mind first is kindness. She was so kind and understanding. I will always be grateful to her. Other descriptors: professional, dedicated, hard-working, creative, talented. BHS Teacher of the Year - she is all that and more. Lastly I want to acknowledge her courage. Chris has endured physical infirmities and challenges that would have broken the average person. She has never complained or succumbed to self-pity. What I consider her personal mantra is, 'It is what it is' and I will always associate that philosophy with her. It has been an honor and a privilege to be her colleague, and most of all, her friend." - Dtrs. Elliot

Mrs. Elliott

"OVER THE YEARS, MRS. ELLIOTT HAS HELPED ME IN SO MANY WAYS AS BEING A RESOURCE FOR MY CLASSES. HER KNOWLEDGE OF MEDIA SERVICES AND HER SHARING OF IDEAS HAS LED ME TO DEVELOP LESSONS WHICH WERE INTERESTING AND PERTINENT TO MY STUDENTS. AS A FRIEND, I COULDN'T ASK FOR A BETTER ONE!" - Ms. WILENSKI

Mrs. Elliott's favorites (according to Mrs. Daniels)

- 1) Buying shoes
- 2) Buying jewelry
- 3) Watching the Red Sox
- 4) Listening to Opera
- 5) Shopping
- 6) Drawing moustaches on Bush pictures

"Mrs. Elliott has been my friend and colleague for several years. On a professional level, she has greatly assisted staff and students with research in media. On a personal level, Mrs. Elliott has been a valued friend that shared stories, dark grey mornings and hot cups of coffee to soothe them. Enjoy your retirement Mrs. Elliott...and Go Red Sox!" - Mrs. Terrill

I am retiring from the Berlin High School Library after 16 years, plus five and one half years at Wolcott High School. I received a liberal arts education at Mount Holyoke College, majoring in English Literature. I pretty much studied what I wished (after the miserable core curriculum requirements) and graduated prepared to do anything and nothing. I married right after graduation and worked as an administrative assistant at the Yale Library while my husband served in Vietnam. We lived in Denver when he returned and when his tour was up, moved back to Connecticut. I worked a while longer at the Yale Library and then I became a mother to my beautiful daughter Amy.

At the urging of my husband, I went to graduate school at the age of 35, and five years later earned a Masters in Library Science. I had to earn so many credits (to get certified in education) that I was advised to go to law school instead. But Library Science appealed to me. I loved to read literature, and moreover, I loved doing research! Writing those papers, however, was not fun at all. I chose to work with high school students, because there was greater opportunity for research.

I earned my MLS in 1987 and much has changed in my field since then. Much has changed in the last 5 years! The Internet was just beginning to influence research strategies. Personal computers were tiny and slow. I used a typewriter for most of my work until about 12 years ago. Now Library Science is really Information Technology.

Though information technology has revolutionized research, the major challenges of teachers and librarians remain: encouraging students to read and evaluate the material(s) they are using. Poor reading and writing skills affect the learning of students across the curriculum.

Being a high school library media specialist was a natural choice for me. I come from a family of educators; my entire nuclear family was involved with education at some level. My husband, Stuart A. Elliott, former principal of North Haven High School, was my greatest personal and professional inspiration. Though he died three weeks before I began my time here at BHS, I still benefit from his wisdom and dedication.

I have spent much time and effort to improve the print collection in our library. I have enjoyed selecting the books and offering them to our staff and students. We have kept up with changes in technology, as much as our budget permits. I have worked with many terrific students in the past 16 years. It has been an honor and a privilege to work with many of my colleagues here at BHS and I will miss them.

I wish you farewell and all the best in your future endeavors! I think I hear Block Island calling my name.

Mrs. Scanlan-White

"Mrs. Scanlan-White is the consummate professional. Her work ethic, attention to detail, and concern for student performance make her stand out. She has earned the respect of her colleagues and the students benefit from her experience. Having worked with her closely for the last several years, I can attest to her outstanding approach to her career. Berlin High School is a far better place because of Mrs. Scanlan-White." - Mr. Bosso

"Marilyn is the consummate professional. Working with her is a lesson in efficiency and dedication. While she is really a "behind the scenes" sort of person, she has been a driving force within Berlin High School for twenty years or so. With Marilyn, the students ALWAYS come first and she has served them, and the school, very, very, well." -Mr. Warburton

"Marilyn Scanlan-White has encouraged and supported the love of reading among both students and staff at Berlin High School for two decades. Through her coordination of Read Across America Day, student-faculty reading groups, and the town-wide reading program "One Book, One Berlin," Marilyn has had a positive impact on our school that goes well beyond the students in her reading classes and the teachers with whom she has collaborated on promoting literacy across the curriculum. As a colleague and a friend, I will miss my hallway conversations with Marilyn about books, teaching, family, and travel—in her retirement I know she will continue to be actively engaged in all of these in one way or another! To Marilyn—best wishes and happy reading!" -Mr. Silva

How long have you been teaching at BHS? 20 years, 38 years altogether
What was your college experience like? I am a graduate of Central Connecticut State University with a bachelor's degree in elementary education, master's degree in K-12 Reading, and sixth year degree as K-12 Reading Consultant
When did you decide you wanted to become a teacher? I decided to become a teacher when I was about ten years old. I enjoyed helping the youngsters in the neighborhood. (At that time a female chose one of two careers- that of teaching or nursing.) I am very happy to have chosen education. I love what I do.

What is your favorite aspect of teaching? Working with young adults, attempting to help them prepare for their future, to see the value in reading - every day is different- I also appreciate working with other teachers who have the same goals.

What is your advice for those who wish to pursue a career in education? Teaching consumes a large part of your life, you will never be bored, you are constantly learning, it is a hard job that is very fulfilling
Who inspired you to go into teaching? All adults who took time to recognize and respect me as an individual, who cared enough to teach me

If I have helped one student recognize the value of reading and an education then I think I can feel I have accomplished my goal. Thank you to all educators and students who have been part of my life as a teacher.

"Marilyn has provided a safe and effective place for Berlin students to improve their reading skills. Her contributions have quietly ensured that all our students are served, and that they all leave here capable and confident readers, as one of Marilyn's Senior portfolio partners, I've always been impressed by her facility at getting to the essentials of issues and setting up workable solutions. She'll be tough act to follow, and we'll all miss her cheerful presence." - Mr. Scannell

Ms. Wilenski

"Marsha Wilenski has become a close friend and confidant. I've learned a lot by watching Marsha interact with her students. She is fair and firm, yet shows genuine compassion. Her students know she cares about them and their work. I've been blessed to have worked with two such outstanding women and only hope I can pass on some of what they have left to the new recruits." - Mr. Raiti

Mrs. Salerno

Teacher of the Year

From my first job teaching 7th grade science to the many years teaching at Asnuntuck Community College and working with student teachers at CCSU, I have thoroughly enjoyed my career. I simply love to learn and with teaching, you learn something new every day. It's always a challenge, but it's always different.

I've been working in education since I graduated from UCONN in 1975 with a B.A. in Biology, Chemistry and Secondary Education. I also have a M.A. in Environmental Biology from CCSU and am working on my 6th year in Educational Leadership at SCSU. I have been teaching Biology and Chemistry at Berlin High for the past eight years. I've enjoyed looping years the best. These are the years when I have 10th graders in Chemistry and again the following year in Biology. We get to know each other really well and they succeed because there are no surprises. They are comfortable with my teaching style and I know how best to help them learn.

Students often ask me why I became a science teacher. Sometimes I joke and tell them that it was the furthest I could get from what my mother wanted me to do to be a Home Economics teacher. Many different things interested me and it was hard to choose. I was always involved in music, liked languages and cultures, but found nature and science fascinating. I was and still am happiest when I'm outside. My favorite place has always been the beach. It's full of energy and serene at the same time. Trying to understand all of the processes taking place in that one environment lead me to a career in science.

Some of the best learning in my classes stems from stories - personal experiences, different environments I've been to, things or creatures I've seen. It's a way to engage and make connections. My advice to future teachers - make it real, enjoy the moment, and always look for the humor in everything."

"It is a pleasure teaching across the hall from Mrs. Salerno. I admire her very much for the way in which she engages her students and promotes a positive learning environment in her classroom. She is someone I can laugh with and who I can depend on - she is an asset to our teaching staff." -Ms. Romano

"Mrs. Salerno is highly qualified and one of the best department chairs that we've had in Berlin High School."

Drama Club is a perfect place to share some laughs, meet new people, and act like yourself!

Where a **STAR** is born

A small group of teen girls in 1692 Salem, Massachusetts caught in an innocent conjuring of five notions to catch young men are forced to tell lies that Satan had invaded them and forced them to participate in the rites and are then forced to name those involved. Thrown into the mix are greedy preachers and other major landowners trying to steal others' land and one young woman (Dr. Cereno) infatuated with a married man (Joseffy) and determined to get rid of his innocent wife (Kulmar). Arthur Miller wrote the events and the subsequent trials where those who demanded their innocence were executed, those who would not name names were incarcerated and tortured, and those who admitted their guilt were hanged. I read this as a parable of the Congressional Communist witch hunts led by Senator Joe McCarthy in 1950's America.

Berlin High School Proudly Presents:

Annie

In the depths of the 1930's, Annie (Stephanie Swiatek) is a fiery young orphan girl who must live in a miserable orphanage run by the tyrannical Miss Hannigan (Lisa DelCegno). Her seemingly hopeless situation changes dramatically when she is selected to spend a short time at the residence of the wealthy munitions industrialist, Oliver Warbucks (John Mattie). Quickly, she charms the hearts of the household staff and even the seemingly cold-hearted Warbucks cannot help but learn to love this wonderful girl. He decides to help Annie find her long lost parents by offering a reward if they would come to him and prove their identity. However, Miss Hannigan, her evil brother, Rooster (Robert Cote), and a female accomplice, plan to impersonate those people to get the reward for themselves which put Annie in great danger.

Sandy (Bailey)

"Some women are drippin'

Lucky me, lucky me, look at

Little girls!"

"The sun'll come out tomorrow, so you gotta hang on till tomorrow, come what may. Tomorrow, tomorrow, I love ya, tomorrow, you're only a day away."

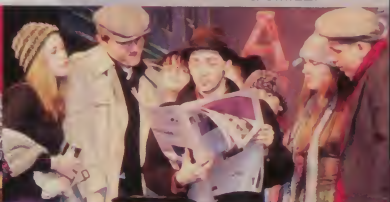

But Mr. Oliver Warbucks (John Sullivan) and Grace Farrell (Krista Sullivan) come to save poor Annie from the Orphanage.

The villains: Miss. Hannigan (Lisa DelCegno), Lily St. Regis (Lindsay Young) and Rooster (Robert Cote) are taken the Easy Street out of their misery of having completely nothing!

"Easy Street, Easy Street, that's where I want to be!"

"You Never Fully Dressed Without a SMILE!"

MEN'S SOCCER

"It's not always about winning or losing, but rather who you spend your time with. You can ask any of the seniors and they will tell you that what started as just a team four years ago became something of a brotherhood this season for Berlin Men's Soccer. The season had its ups and downs, but win, lose, or tie, we all went through it together. We supported one another both on and off the field through the rough times and the great times. The team and I would like to thank Coach Francalanga and Coach Parafati for their time and efforts. Over our four years on the soccer team both I and the seniors learned a great deal about the game and about how to reach goals that we thought were unattainable. Thanks again for all of the memories, the great coaching, and the genuine love of the game." - Bobby Salerno

CROSS COUNTRY

The 2007 season turned out to be a great achievement for BHS Cross Country. Whether it was at a championship meet or simply on the back roads of Berlin, the team always found time to have fun. Led by their devoted captains, Molly Moskey, Michael Soneson, and Justin Crim, runners on both the girls and boys sides dramatically improved their times at every meet. By the end of the season, through all the pain, pasta suppers, and plastic legs, this team formed a bond which proved to last even after the final races ended.

"12...13...14...alohamora! Even stretching was fun, and what kind of XC team would be without breaking a collarbone here or there? Good season guys, keep rules 7,9, and 11 in mind and run fast next year."

"So many of my greatest experiences have been with the XC team. Through practices, meets, and XC parties, I have made some of my greatest friends. I will always remember pooch sticks, peter parleys, and the leg."

"XC to me is more than just races, but the experiences I've had with the team."

WOMEN'S BASKETBALL

The Lady Redcoats had a remarkable and unforgettable 2008 season. For the first time in the history of the program the girls captured the North West Conference Tournament Title, the greatest highlight of the season. They went on to play in some of the most exciting state tournament games ever, defeating Wood and Regional in first round play, knocking off #1 seed East Hampton in overtime and losing by just one point in the quarter finals. This team will be remembered by their peers, teachers, administrators, and town for their tremendous display of team work, heart, and competitiveness for a very long time. Indoor track is a great experience. David Hosek is really motivational. It makes you really push yourself in order to succeed. The meets are fun, but it's good bonding time with the team and a great opportunity to meet new people. -Captain Rasmussen

My high school track experience has been amazing. I have learned so much from the sport. It teaches discipline, dedication and shows the benefits of hard work. The people are great and they make it just that much better. Overall, track has definitely been one of the most rewarding experiences throughout high school.

MEN'S SWIMMING & DIVING

Though only in their third season, the Berlin Men's Swimming and Diving team has become stronger thanks to the hard work and dedication of its members and coaches. With a large group of freshmen as well as many veteran swimmers, the Redcoats made their presence known in the Nutmeg League and around the state with eight wins and five losses. In the Class M state meet, the team emerged in the top ten, greatly improving upon last year's 15th place finish and the previous year's 21st place finish. But to the swimmers and divers, the numbers aren't important. Through their unyielding determination, the team developed a type of camaraderie unrivaled by any other Berlin sports team. And although the majority of the original team

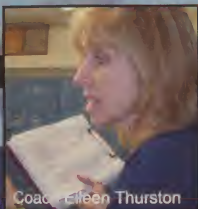

members will be graduating this year, their passion for the sport will continue to live on in the underclassmen. Hopefully, with the help of parents, pasta suppers, and the always positive coaching staff, the Berlin Men's Swimming and Diving team will remain to be the "baddest" in the state of Connecticut.

WRESTLING

"The BHS wrestling team had a great season. They finished their season as Art Powers Duals Champions and NWCL State Tournament runner-up. This season had its highs and lows, but the team worked through them all and finished the season at 22-7. Many of our victories included the top teams of the state as well as New England. I have great respect for this team and wish them the best of luck in the future. They didn't quit despite the difficulty of the sport and the attribution needed to succeed:

mental toughness, focus, diet and social sacrifices, and especially the ability to do more than one thing at a time... 'You know like walking and chewing gum.'"

Michael Baczewski

Michael,

You came into this world on a beautiful winter day.
The sky was clear and brightly colored blue (your
favorite color). The sunlight danced on freshly
fallen snow. Light so intensely bright, sparkling
upon your new home. This was your beginning.
We were so proud and full of love to look at you
and know there's a God above.

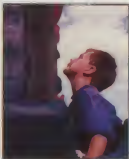

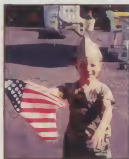

So, Michael,

May God bless and keep you always,
May your wishes all come true,
May you always do for others
and let others do for you.
May you build a ladder to the stars
and climb on every rung,
May you stay forever young.
May you grow up to be righteous,
May you grow up to be true,
May you always know the truth
and see the lights surrounding you.
May you always be courageous,
stand upright and be strong.
May your hands always be busy,
May your feet always be swift,
May you have a strong foundation
when the winds of changes shift.
May your heart always be joyful,
May your song always be sung,
May You Stay Forever Young.

*I hope that the days come easy
and the moments pass slow,
And each road leads you
where you want to go,
And if you're faced with a choice,
and you have to choose,
I hope you choose the one that
means the most to you.
And if one door opens
to another door closed,
I hope you keep on walkin'
till you find the window,
If it's cold outside, show the world
the warmth of your smile,*

*But more than anything,
more than anything,
My wish, for you, is that this life
becomes all that you want it to,
Your dreams stay big,
and your worries stay small,
You never need to carry
more than you can hold,
And while you're out there
getting where you're getting to,
I hope you know somebody loves you,
and wants the same things too,
Yeah, this, is my wish.*

*I hope you never look back,
but ya never forget,
All the ones who love you,
in the place you left,
I hope you always forgive,
and you never regret,
And you help somebody
every chance you get,
Oh, you find God's grace,
in every mistake,
And you always give
more than you take.*

Mister,

We are all so proud of you. Watching you grow
from a little boy that dressed in your own
handmade fire gear (ski pants in the summer!) to a
grown man that is now a volunteer firefighter is just
incredible. You have made and I hope keep making
your dreams come true. You have certainly worked
very hard to get where you are today.

You are an inspiration to us all.

Congratulations on all your achievements.

Hey Bud!!

There is nothing a man would like more than his
son following in his footsteps! I am so proud of you
becoming a firefighter and serving the community
like I did when I was your age! It is clear to me by
watching your growth in high school that you have
a great opportunity ahead in your personal and
professional life. There is no greater feeling for a
father to have than watching his son have so many
high achievements! I am proud to say that we now
share in the brotherhood of public safety
through the fire service.

Love,
Dad

Cameron Banks

Dear Cameron,

You never boast or speak about your generosity or how much you have done for others, nor have you ever mentioned to anyone the sacrifices you've made to maintain your high ideals. Speaking the truth is not always popular but we can always count on you to do so. You work harder than anyone we know and you will never be sorry for it. So much of the kindness and compassion you show your fellow man is given when no one is watching, and that is when it counts most. We love you for that, and for who you are.

Mom & Dad

Cam,

You're the smartest and best kid I know.

the 1990s, the number of people in the world who are under 15 years of age has increased by 1.2 billion, from 1.1 billion in 1980 to 2.3 billion in 1999 (United Nations 2000).

There are a number of reasons why the number of children in the world has increased so rapidly. One of the main reasons is that the number of children who survive to adulthood has increased. In 1980, only 50% of children born in the world survived to adulthood. By 1999, this figure had risen to 80% (United Nations 2000). This is due to a number of factors, including improved medical care, better nutrition, and a decline in child mortality rates.

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out the government's commitment to older people and the actions that will be taken to improve their lives. The strategy is based on the following principles:

- Older people should be able to live independently and actively in the community.
- Older people should be able to access the services and facilities they need.
- Older people should be able to participate in the decisions that affect their lives.
- Older people should be able to live in a safe and secure environment.

The strategy also sets out a number of specific actions that will be taken to improve the lives of older people, including:

- Improving the quality of care in residential care homes.
- Improving the quality of care in the community.
- Improving the quality of care in hospitals.
- Improving the quality of care in nursing homes.
